# Bumper Post Sleeve Installation Instructions

## What You Will Receive:

- Designated number of Bollard Covers
- Two pieces of neoprene tape for each

## Step #1

- Remove the back of the installation tape
- Firmly apply about 6" from the top of your bollard
- Do not connect the end (see picture)

## Step #2

- Remove the back of installation tape
- Firmly apply 6" from the bottom of your bollard
- This time, connect the ends (see picture)

## Step #3

- Slide your bollard cover over your steel bollard
- You should hear air being forced out
- Your bollard cover is now secure
