

# Drain Guard® Reusable Model

Capture sediment and debris from stormwater runoff

Storm drains on or around construction sites are susceptible to large quantities of sediment and debris. In those circumstances, a higher capacity catch basin insert may be the better solution.

While it won't capture hydrocarbons like many of the other Drain Guards, the reusable model is capable of containing hundreds of pounds of sediment, trash, and debris.

## Product Highlights

- + Manufactured with durable/ hi-vis polypropylene fabric.
- + Designed with a large containment area for construction runoff - easily cleaned and reused.
- + Easy removal with backhoe, forklift, or other equipment.
- + Custom sizes available.
- + Helps comply with NPDES, 40 CFR 122.26 (1999) and TMDL requirements.
- + Material: High Flow Woven
