

Flood Stopper

Sandless sand bags protect property against floods, leaks, and other liquid emergencies.

The Flood Stopper is a revolutionary sandless sandbag that can be used to build an effective water barrier to protect property, homes and stores against floods and other liquid emergencies.

Product Highlights

- + Easy-to-use and transport - bags and tubes weigh approximately one pound each before being activated with fresh water.
- + Sturdy construction – Passes multiple drop tests from 1 meter.
- + Quick acting - In 2.5 - 3.5 minutes, the bag fills to capacity, ready to prevent floods and leakage from causing damage.
- + Engineered consistency - designed and built to maintain a consistent shape throughout the Bag or Tube. The Flood Stoppers use an ingenious and patent pending method for assuring the complete distribution of the water-absorbing polymer granules, when activated.
- + Fills to 20-40 lbs. when fully activated.
- + Safe, Non-Toxic, and can be disposed of at local landfill.

Flood Stopper

Part#	Model	Overall Dimensions in. (mm)	Weight Lbs. (Kg)
5430	Flood Stopper Bag (6-Pack)	12 x 24 x .25 (305 x 610 x 6) - Unactivated	Approx. 0.6 (0.3) - Unactivated. Approx. 30 (13.6) - Activated
